Recent Requirement for QA/QC Course

In accordance with the industry's current requirements for QA/QC Engineers, all engineers must have multiple skills and be specialized in at least two specific technical areas. Although engineering subjects are large and extensive, recent engineering graduates may not be able to meet current industry requirements, as noted above. To fill this gap, engineers in the new trade must be trained and certified in the Honors Certification Program and have the equivalent of an QA / QC engineer with at least 3-5 years of active industrial experience. Today, specialty certification programs are considered a mandatory requirement in almost all sectors / Industries.

This course is according to Sanjary (SEA) Engineering Professional Certification Program , Industrial Jobs requirements and International Standards
